Original Oil on Panel Board

Custom Framing

- Design-it-yourself and Save!
- Museum-Quality Framing
- Up to 50% off Gallery Prices

Frame Your Artwork Online & Save!

Did you know that you can custom frame this artwork to your exact taste and specifications. Spark your own creativity and frame your artwork in as little as 2 minutes in three easy steps! Our Online frame shop offers museum quality framing services at prices up to 50% off your local gallery or frame shop. [See art collection](#) .

About Maurice Meyer

With his colorful sunsets and moonlight coastlines Maurice Meyer has captivated art enthusiasts for decades. From Laguna Beach to Hawaii Meyer captures waterfalls, mountains, and horizons with incredible detail. Appreciated in the past by such collectors as Bob Hope and Richard Nixon, his works decorate businesses such as the Transworld Insurance Company and he's been commissioned to paint for clients all over the world.

Meyer was born in Memphis Tennessee 1936 and perfected his talents while studying at the Memphis Art Academy. Impressed with the works of Rembrandt, Maurice developed a similar style he refers to as "traditional realism" and is now known as the "Rembrandt of Seascapes".

Original Oil on Panel Board

Oil painting is the process of painting with pigments that are bound with a medium of drying oil especially in early modern Europe, linseed oil. Often an oil such as linseed was boiled with a resin such as pine resin or even frankincense; these were called 'varnishes' and were prized for their body and gloss. Other oils occasionally used include poppyseed oil, walnut oil, and safflower oil. These oils confer various properties to the oil paint, such as less yellowing or different drying times. Certain differences are also visible in the sheen of the paints depending on the oil. Painters often use different oils in the same painting depending on specific pigments and effects desired. The paints themselves also develop a particular feel depending on the medium.

Oil paint was first used, as current knowledge shows, in western Afghanistan sometime between the 5th and 9th Centuries. From there its practice likely migrated westward until, when in the Middle Ages, (Theophilus mentions oil media in the 12th Century) it came into use, although not widespread, in Europe. It later became the principal medium used for creating artworks; the transition beginning during the 15th century with Early Netherlandish painting in northern Europe. By the height of the Renaissance oil painting techniques had almost completely replaced tempera paints in the majority of Europe. Oil painting dates in the West to at least ancient Roman times.
