Offset Lithograph

The offset lithography process works by first transferring an image photographically to thin metal, paper, or plastic printing plates. Unlike other forms of printing, the image on the printing plate is not recessed or raised. Rollers apply oil-based ink and water to the plates. Since oil and water don't mix, the oil-based ink won't adhere to the non-image areas. Only the inked image portion is then transferred to a rubber blanket (cylinder) that then transfers the image onto the paper as it passes between it and another cylinder beneath the paper.

The term offset refers to the fact that the image isn't printed directly to the paper from the plates, but is offset or transferred to another surface that then makes contact with the paper.

Authenticity & Price Match Guarantee: Shop with confidence. ArtRev.com is proud to be the first online art retailer to offer a "[lifetime authenticity guarantee](#)" with every limited edition or original work of art. Most limited edition and original artworks ship with a Certificate of Authenticity free of charge. This certificate is an official and valuable document that most insurance companies require in order to insure artworks against damage or theft. ArtRev.com will make every possible attempt to match or beat the advertised price of any major Internet competitor, art gallery, or frame shop; given that they are authorized to sell the item from the publisher or artist, and have the exact item in stock available for immediate sale.

Pricing & Availability: Due to the dynamic nature of the ArtRev.com website, prices and availability are subject to change without notice. ArtRev.com is not responsible for any pricing errors.
