About Rob Scotton

Rob Scotton was born September 26, 1960 in England. He is a bestselling author and artist who received his education at Leicester Polytechnic where he graduated with honors. Rob Scotton and his wife Liz, who is also an artist, currently reside in Rutland, England where Rob Scotton imagined, created, writes and illustrates the popular children s book characters, Russell the Sheep and Splat the Cat.

The idea that created the Russell the Sheep series came to Rob Scotton as he was riding his bike through a field in Rutland, England. Believing that a story about sheep that do nothing but eat and stare would be boring to young readers, Scotton came up with a silly, fun-loving character named Russell the sheep who lives in Frogsbottom Field. Scottons creation of Russell turned an otherwise uninteresting creature into a universally loved character who often suffers from insomnia and is trying to find ways to sleep. It is because of this that the pajama clad Russell the Sheep has become a popular bedtime story and character to children

around the world. Russell the Sheep's silly adventures are a must read for children and includes bestselling titles like: Russell the Sheep, Russell and the Lost Treasure, Go to Sleep, Russell the Sheep, and Russell's Christmas Magic.

Rob Scotton is creator, author and illustrator of the popular bestselling children's series Splat the Cat. A fat, black cat that lived next door to Rob Scotton is the muse for the Splat the Cat series- inspiring hilarious, brilliantly illustrated stories like: Secret Agent Splat, Love Splat, Splat the Cat: Funny Valentine, and Splat Says Thank You. Anyone who has ever owned a cat can relate to the character Splat and his many misadventures. Scotton's creation of Splat has become his most popular series among young readers. Splat is the perfect combination of naughty and nice and the quirky, mischievous black cat draws in readers who can't wait to see what his next adventure will be. Splat the Cat stories are not only entertaining but are also lessons in life and learning for young readers.

The imaginative characters Splat and Russell are two of the best-loved children's book characters in today's literary market. Rob Scotton is not only a children's book author and illustrator but he is also a commercial illustrator and graphic designer whose art can be found on greeting cards, glassware and other household accessories produced by Portmeirion Studio. He is hard at work on his next artistic creation.

Offset Lithograph

The offset lithography process works by first transferring an image photographically to thin metal, paper, or plastic printing plates. Unlike other forms of printing, the image on the printing plate is not recessed or raised. Rollers apply oil-based ink and water to the plates. Since oil and water don't mix, the oil-based ink won't adhere to the non-image areas. Only the inked image portion is then transferred to a rubber blanket (cylinder) that then transfers the image onto the paper as it passes between it and another cylinder beneath the paper.

The term offset refers to the fact that the image isn't printed directly to the paper from the plates, but is offset or transferred to another surface that then makes contact with the paper.
